By Appointment.

TUCK'S POST CARD

CARTE POSTALE. POSTKARTE.

The Gannet or Solan Goose. The young birds are naked when hatched, but are quickly covered with white down; the same nest is used several seasons. Gannets feed on fish, which is obtained by plunging, often from a great height. They breed on the Bass Rock, Ailsa Craig and other places; the young birds are taken for food. The down is also used.
